PROFESSIONAL SUMMARY

MERN Full Stack Developer with nearly 3 years of experience building scalable web and mobile applications with TypeScript, real-time systems (WebSockets, Kafka), secure authentication (JWT, RBAC), and cloud deployment on Azure and AWS.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Redux, Next.js, HTML5, CSS3, Responsive Design
Backend: Node.js, Express.js, RESTful APIs, API Integration, Microservices, WebSockets, SignalR, Kafka, Redis
Databases: MongoDB, Mongoose, PostgreSQL, MySQL
Cloud and DevOps: Microsoft Azure (App Services, AI Document Intelligence, Communication Services), AWS, Docker, CI/CD, GitHub Actions, Nginx
Authentication and Security: JWT, OAuth, Authentication, Authorization, Role-Based Access Control (RBAC)
Tools and Practices: Git, GitHub, Agile, Scrum, SDLC, Code Review, Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Full Stack Developer **July 2025 – June 2026**

SDLC Corp, Noida, India

- Developed and scaled MERN stack applications across sports streaming, multilingual communication, and accounting domains using React.js, Node.js, MongoDB, and TypeScript.
- Troubleshot complex application issues, optimized application performance, and implemented secure authentication and authorization to improve reliability and user experience.
- Collaborated with cross-functional teams to gather requirements, evaluate technical solutions, and deliver features on schedule using Agile practices.

MERN Stack Developer **August 2023 – June 2025**

NPR Supporting Services Pvt. Ltd., Noida, India

- Built healthcare platform features and RESTful services using React.js, Node.js, Express.js, MongoDB, and JWT authentication.
- Implemented dynamic patient appointment scheduling and live video consultation workflows by integrating responsive React interfaces with scalable Node.js backend services.
- Contributed to backend automation scripts in Core Python and .NET service modules hosted on Microsoft Azure, and supported a group of 4-5 engineers through code reviews and feature coordination in an Agile environment.

PROJECTS

DigiBahi - Digital Accounting Platform

Tech Stack: React.js, Node.js, MongoDB, Azure AI, Tally Integration

- Developed application workflows using React.js and Node.js, integrating document processing capabilities with backend services and MongoDB.
- Configured Azure AI Document Intelligence to classify business documents and extract structured financial records for automated accounting workflows.

Boxing League - Sports Streaming Platform

Tech Stack: React.js, Node.js, MongoDB, AWS, Kafka

- Built features for match discovery, live playback, event highlights, ticket booking, and admin management using React.js, Node.js, and MongoDB.
- Optimized asynchronous event processing and notifications using Kafka to sustain performance during peak traffic events.

Uhura - Multilingual Communication Application

Tech Stack: React Native, Node.js, Azure Communication Services, SignalR

- Delivered a cross-platform mobile application supporting instant messaging, voice calls, video streaming, and live translation.
- Integrated Azure Communication Services with Speech-to-Text pipelines, using SignalR and WebSockets for instantaneous bidirectional communication.

EDUCATION

B.Tech in Computer Science, I.K. Gujral Punjab Technical University **August 2020 – June 2024**

- CGPA: 9.16 / 10.0
- Awarded the National Scholarship Portal (NSP) Scholarship for three consecutive academic years.

CERTIFICATIONS AND TRAINING

React.js Training and Internship, Solitaire Infosys Pvt. Ltd., 2022
