Deepika

Noida, India | deepikarawal1435@gmail.com | 087087 94625 | linkedin.com/in/deepika1107

Summary

Full-stack developer with 2+ years of hands-on experience building scalable web applications using React, Node.js/Express, and MongoDB, delivering REST APIs, real-time features with WebSockets and SignalR, and speech-enabled workflows via Azure Communication Services with media streaming and STT/TTS, all shipped through CI/CD and deployed across Azure, AWS, and DigitalOcean.

Education

I.K. Gujral Punjab Technical University, BTech in Computer Science – Punjab, India Aug 2020 – June 2024

- GPA: 9.16/10.0
- Coursework: Data Structures; Operating System; DBMS; Artificial Intelligence; Cloud Computing; Computer Networks
- Award: NSP Scholarship for 3 consecutive years.

Experience

Full Stack Developer, SDLC CORP – Noida, UP, India July 2025 – present

- Build and ship features with React and Node.js; design REST APIs and real-time flows (SignalR, Kafka) on Azure
- Coordinate work with teammates, lead/client meetings, and daily manager updates; split tasks for on-time delivery
- Continuously learn and apply TTS, STT, Azure Communication Services (ACS), Media Streaming, Azure Service Bus, Azure Functions (serverless), and DigitalOcean

Full Stack Developer, DCORE HOST – Noida, UP, India Aug 2024 – June 2025

- Configured CI/CD with GitHub Actions; cut deployment time by ~35% and eliminated production deployment failures on Ubuntu VPS
- Maintained ~95% PR approval while mentoring 4–6 juniors; coordinated cross-team delivery to hit release dates

MERN Stack Developer, NPR Supporting Services Pvt. Ltd – Noida, UP, India Aug 2023 – July 2024

- Joined as a MERN Stack Developer Intern with official college approval and later transitioned to a full-time role based on performance. Built complex backend APIs using Node.js, Express, MongoDB, and JWT.
- Collaborated daily with the project manager to prioritize tasks, resolve blockers, and deliver stable, well-tested endpoints.

Projects

UHURA Application

- Used Azure Communication Services (ACS) for audio calls and media streaming; captured PCM packets over WebSockets
- Integrated Speech to Text (STT), translated to the preferred language, then Text to Speech (TTS); published translated PCM back to the ACS call stream
- Implemented real-time notifications and session updates via SignalR; integrated Azure Service Bus for reliable message processing
- Deployed backend with Azure Functions (serverless) and containerized services on DigitalOcean
- Tech Stack: Node.js, Express.js, React Native, Azure (ACS, Service Bus, Functions), SignalR, WebSockets, MongoDB

ERP

- Led the development of a comprehensive CRM with 4-tier access control (User, Admin, Superadmin, Client)
- Enforced role-based authentication with JWT and a granular permission model.
- Built real-time notification system and audit logging for all user activities.
- Decreased manual reporting work by 70% through dynamic PDF generation.
- Tech Stack: React, Node.js, MongoDB, VPS Server

MyCheckup Platform

- Created an appointment scheduling system with calendar integration, serving over 50,000+ users
- Enforced JWT authentication.
- Built doctor-patient video call consultation module.
- Cut manual reporting effort by 70% through programmatic PDF generation.

- Tech Stack: React, Node.js, MongoDB, AWS

Skills

Programming Language: JavaScript (ES6+), HTML5, CSS3, C++, PHP8

Frontend: React.js, Next.js, Material-UI, Tailwind CSS

Backend: Node.js, Express.js, Laravel, REST APIs, WebSockets, Microservices, JWT, STT/TTS integration

Databases: MongoDB, MySQL, Firebase

DevOps & Cloud: Git, GitHub Actions, CI/CD, AWS, Azure (ACS, Service Bus, Functions), DigitalOcean, Nginx, Kafka

Mobile & Notifications: FCM, APNS, SignalR, ACS

Methodologies: Agile, Scrum, Code Review

Extracurricular Activities

- Active participant in coding competitions and hackathons
- Harmonium player - Performed at college cultural events

Certifications

1. C/C++ Programming Certification - 2023
2. React.js - Summer Training (College Level) - 2023
