Deepika

Full Stack Software Engineer | React.js • Node.js • MongoDB • Azure • Microservices

Noida, India | deepikarawal1435@gmail.com | 087087 94625 | deepika-portfolio-zeta.vercel.app | linkedin.com/in/deepika1107

SUMMARY

Full Stack Software Engineer with 3 years of experience designing and building scalable web applications and real-time communication systems using React.js, Node.js, and MongoDB. **Currently learning Python for data analysis.**

EDUCATION

I.K. Gujral Punjab Technical University, BTech in Computer Science – Punjab Aug 2020 – June 2024

- GPA: 9.16/10.0
- Awarded the NSP Scholarship for three consecutive years.

EXPERIENCE

Full Stack Developer, SDLC CORP – Noida, UP, India July 2025 – present

- Built scalable web applications using React.js, Node.js, and MongoDB, supporting real-time communication systems serving 10k+ active users.
- Integrated SignalR, WebSockets, and Azure Communication Services enabling low-latency real-time messaging and media streaming.
- Architected microservices-based backend services on Azure powering 3 production platforms including accounting, voice communication, and sports streaming platforms.

Full Stack Developer, DCORE HOST – Noida, UP, India Dec 2024 – June 2025

- Optimized CI/CD pipelines using GitHub Actions, reducing deployment time by 35%.
- Maintained production Ubuntu VPS infrastructure, ensuring 99.9% uptime and zero deployment failures.
- Developed backend APIs and core modules for an ERP-based business management platform.

MERN Stack Developer, NPR Supporting Services Pvt. Ltd. – Noida, UP, India Aug 2023 – Dec 2024

- Engineered backend services using Node.js, Express, MongoDB, and JWT authentication.
- Delivered backend modules for a healthcare platform, supporting appointment scheduling and video consultations for 5k+ users.
- Implemented scalable REST APIs and collaborated with project managers to deliver production features.

PROJECTS

Boxing League - Sports live streaming and analytics platform

- Launched a sports streaming platform that enables users to watch live and recorded boxing matches.
- Executed adaptive bitrate streaming (HLS/DASH) for smooth playback.
- Designed an admin panel for managing matches, highlights, and analytics.

Voice Translation Platform - Real-time multilingual communication platform

- Built a real-time voice translation application that supports conversations across 50+ languages.
- Integrated Azure Communication Services with Speech-to-Text and Text-to-Speech pipeline.
- Enabled real-time updates using SignalR and WebSockets.

Digital Accounting Platform - Financial record and document automation platform

- Constructed a digital accounting platform for managing invoices, vouchers, documents, and financial records for small business operations.
- Used AI-based document models to train, classify, and extract data from invoices, vouchers, bank statements, and financial documents.
- Built secure document management workflows and pushed extracted document, voucher, and accounting data to Tally.

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, C++, PHP

Frameworks: React.js, Next.js, Node.js, Express.js

Databases: MongoDB, MySQL, Firebase

Tools: Git, SignalR, Kafka, Azure Communication Services

Cloud & DevOps: Azure, AWS, DigitalOcean, CI/CD, GitHub Actions, Nginx, Docker

CERTIFICATIONS

C/C++ Programming Certification (2023) | React.js Training (2023)
